

FORSCHUNG / ENTWICKLUNG

Team Leader Mechanical Systems

Our Mechanical System department (Training Aircraft) is looking for a Team Leader Mechanical Systems.

Your place of work: Stans, Schweiz

What you do:

- Leadership of a team of 5 to 6 FTE and additional consultant/contractors as required
- Management of mechanical systems development projects and continued airworthiness issues
- Review and approval of Engineering Reports
- Review and approval of Technical Publications
- Review and approval of Engineering Changes
- Point of escalation for technical issues with Suppliers

What you bring:

- University degree or equivalent in aeronautical or mechanical engineering
- Minimum 10 years of experience in aerospace mechanical systems within a development, integration and certification environment
- Proven engineering judgement in mechanical systems
- Strong Supplier Management skills and project management skills
- Minimum C1 level English (written & spoken) and minimum B1/B2 level German
