

QA Inspector

Pilatus is looking for a QA Inspector to join our team in Broomfield, CO. As a QA Inspector you will inspect our aircraft, aircraft systems, equipment, and parts to ensure conformity to specifications and compliance with all safety and performance standards. You will also ensure airworthiness and approve aircraft and component parts for return to service. Our aircraft are designed for versatility and serving multiple customer uses, so no two days will be the same. You will be a key part of our team that values a perfect final aircraft delivery that brings our customer's dreams to life. Take your career to the next level with Pilatus Business Aircraft!

PRODUCTION & MANUFACTURING

Your place of work: Broomfield, USA

What you do:

- Completes aircraft maintenance log entries, FAA Form 337, and signs return to service
- Ensures aircraft maintenance and modification records and approvals are accurate and complete
- Prepares aircraft and documents for Import and Export
- Performs final inspection and certifies interior finished products and component shop parts
- Performs interim and final inspections of aircraft, including avionics installations, interiors, and aircraft systems and ensures conformity to Pilatus processes, procedures, and quality standards
- Confirms that all work, materials, and practices conform to approved standards established by the Federal Aviation Administration (FAA) and European Aviation Safety Agency (EASA) regulations and manufacturer specifications
- Acquires working knowledge of Pilatus Production Organization and EASA regulations to quality as certifying staff to issue EASA Form 1

What you bring:

- FAA Airframe license required, Powerplant license preferred
- 3 years of aircraft maintenance or modification experience
- Working knowledge of avionics and/or interiors installations a plus
- Detailed knowledge of Federal Aviation Regulations including Part 21, 23, 39, 43, 65, 91, and 145
- Experience with Quantum and SharePoint a plus
- Must qualify as a U.S. person in compliance with ITAR 22 CFR 120.15
